Continuation of Disposition of Claims: Claims subject to restriction and/or election requirement are 11,15-18,31,34,35,37-39,46,49,51-54 and 56-73.

DETAILED ACTION

1. This Office Action is the answer to the communication filed on October 19, 2000, which paper has been placed of record in the file.
2. Claims 11, 15-18, 31, 34, 35, 37-39, 46, 49, 51-54, and 56-63 are pending in this application.

Election/Restriction

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 11, 15-18, 46, 49, 51-54, 56-72, drawn to a method and system for providing investment advice to a client over a computer network, classified in class 705, subclass 36.
 - II. Claims 31, 34, 35, 37-39, 73, drawn to a graphical user interface for a computer network based system, classified in class 345, subclass 700.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d). In the instant case, invention has separate utility such as:

Inventions I and II have separate utility such as: the invention I drawn to a method and system a method and system for providing investment advice to a client over a computer network, in contrast, the invention II drawn to a graphical user interface for a computer network based system. Therefore, the invention I and II are shown to be separately usable.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
